DIFFERENT FINISHES? YOU ONLY HAVE TO CHOOSE
FINITURE DIVERSE IN BASE AI TUOI GUSTI? BASTA SCEGLIERE

L'ampia gamma di varianti estetiche si rispecchia anche nella vasta scelta di finiture a disposizione.

Ai trattamenti PVD in rame bronzato e cromo di facile che mantengono inalterabile la tonalità e proteggono dalle abrasioni, si aggiungono i trattamenti galvanici: cromo, cromo spazzolato e bronzo spazzolato. Sono inoltre disponibili il prezioso oro e l'attualissimo nero opaco.

Per rendere la collezione ancora più unica e ricercata è disponibile la versione con texture che crea movimento e attraverso pieni e vuoti genera un ritmo. Verona si esprime attraverso il linguaggio universale della forma, privo di sovrastrutture.

The wide range of aesthetic possibilities is driven also by the vast choice of finishes.

In addition to PVD in bronzed copper and gun metal finish which maintain intact shade and protect from abrasion, you can choose from galvanic finishes: chrome, brushed chrome, brushed bronze. Or the precious gold finish, or the ultra-modern matte black.

The Textured finish is another feature that defines the refinement of Verona. It creates solids and voids and gives it rhythm. Verona is expressed through the universal language of form without frills.

VERONA

ELEMENTAL AND SOPHISTICATED ESSENZIALE E RICERCATO

La semplicità si veste di essenzialità per mostrare il suo lato più eclettico e versatile: una sintesi di linee in grado di assumere differenti stili, a seconda delle diverse finiture e lavorazioni possibili, tutti interpretati con poliedrica eleganza, dando forma a un design moderno e dall'anima internazionale, privo di inutili ricercatezze ma ricco di armonica sostanza.

Simplicity fuses with essentiality, showing its elemental and sophisticated side. A fusion of lines yields different styles varying with different finishes and processing. All styles are expressed through multifaceted elegance, resulting in a contemporary design with a worldwide appeal. Harmonious essence is chosen over unnecessary refinement.

BY STYLISH TEXTURES**

Three different material signs that reproduce three-dimensional surfaces with a suggestive connection between base and handle, harmoniously integrated in the mixer. They are: (X) Cross, whose naming reveals an elegant and luxurious faceted surface, inspired by the precious stone diamond, excellent for sophisticated environments; (V) Vertical, characterized by the geometric rigor of a 19 faces polygon; (G) Knurled, a micro-diamond effect with a strongly industrial mood.

VERSUS

The VERSUS collection opens to numerous finishing combinations with the GREEK pattern: a sweet and pleasant decoration that accentuates and intensifies the harmonic lines of the faucets. The decoration process is handcrafted and carried out within our plants in Italian and European Verona Rubinetterie patent. Each decorated piece is unique since it is the outcome of artisan work and, for this reason, even more valuable.

SISTEMA DI QUALITÀ CERTIFICATO CERTIFIED QUALITY SYSTEM

DESIGN MAKES RESPONSIBLE

Lo scopo prioritario di Verona è quello di fornire un prodotto di qualità superiore, progettato minuziosamente e costruito solamente con materiali di prima scelta, una metodologia certificata secondo le norme UNI-EN ISO 9001 per la progettazione e produzione di rubinetteria sanitaria e accessori da bagno.

Inoltre, la creazione e l'implementazione di un sistema integrato che permette sistematicamente di migliorare le condizioni lavorative e di ridurre l'impatto ambientale secondo gli standard OH SAS 18001 ed ISO 14001, è un altro importante passo verso una sempre più consapevole responsabilità sociale d'impresa.

Verona first priority is to create high quality products, conceived carefully in every single detail and produced only with first quality materials, a method recognised by UNI-EN ISO 9001 standards for design and production of sanitary taps and bathroom accessories.

Furthermore, creation and implementation of an integrated system to continuously improve working conditions and reduce environmental impact according to OH SAS 18001 and ISO 14001 standards is another important step towards Corporate Social Responsibility.
